Subject: Fw: Dimock IDW - Waste Profile

Suddha,

Rich Rupert says he signed this when I was on vacation and set it to you. He didn't cc me or Joanna. Would you please email the signed copy of the profile back to me and Joanna?

Thanks.

Rich

p.s. i sent the TDD extension to Philly for processing today.

I just spoke with Sudda and he is going to make a couple changes to the profile to reflect my review.

Hi Rupert.
It was waste from the field screening activities.

See message below. I am resending this e-mail as yesterday I had replied to this message on my phone but inadvertently sent it only to Rich Fetzer.

Rich,
I knew I was forgetting something, as I had wanted to talk to you about that.
The soil was in the waste profile because a small portion of the liquid waste material had spilled out on the ground.
The sampling team scooped up the soil where the liquid waste has spilled.
Suddha

Suddha, I have asked Rich Rupert to help me review this. Why do we have soil in this sampling waste when we didn't sample soil?

Subject: Dimock IDW - Waste Profile

Hi Rich,
We are coordinating the disposal of the drum of IDW from Dimock. We have a disposal firm identified and as part of the process we need to prepare a waste profile. We have it completed and it needs signed by you. Once it is signed a manifest will be generated, which will then be sent to you for signature. Please review and sign the attached waste profile. A scan copy with your signature will be acceptable.
Please let me know if you have any questions.
Thanks,

Suddha Graves
